Section 5: Fire-fighting measures

Suitable (and unsuitable) extinguishing media;
Suitable extinguishing media:
Use water mist, dry chemical powder, fire foam or carbon dioxide.

Unsuitable extinguishing media
Applying direct water may be dangerous because fire may expand to surroundings.

Specific hazards arising from the chemical;
In case of fire, toxic decomposition products may be generated.

Special protective equipment and precautions for fire-fighters;
Cut off any ignition sources and extinguish with an appropriate agent.
Cool the surrounding tank and the buildings with direct water jet to avoid risk of fire spreading.
Take action from windward.
Keep out except responsible personnel.
Move container to a safe area if it can be done without risk.

Section 6: Accidental release measures

Personal precautions, protective equipment, and emergency procedures;
Keep out except responsible personnel.
Wear suitable protective equipment described in Section 8: Exposure controls/personal protection.
Avoid release into the environment because product may cause local effects.

Methods and materials for containment and cleaning up;
Stop leak if you can do it without risk.
In case of small amounts, wipe off spilled material with waste or wiping cloth and collect it in an adequate waste container.
If case of large amounts, prevent leakage and enclose by embankment.
Do not eat or drink near handling and storage locations.
ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).
Prevent to flowing into drains, sewers, basements or closed areas.
Section 7: Handling and storage

Precautions for safe handling

Protective measures:
- Install appropriate equipment and wear suitable protective apparatus described in Section 8: Exposure controls/personal protection.
- Wash hands thoroughly after handling.
- Keep away from heat/sparks/open flames/hot surfaces. No smoking.
- Ground/bond container and receiving equipment.
- Use explosion-proof electrical/ventilating/lighting equipment.
- Use only non-sparking tools.
- Take precautionary measures against static discharge.
- Do not eat, drink or smoke when using this product.

Advice on general occupational hygiene:
- Wash contaminated clothing before reuse.

Conditions for safe storage, including any incompatibilities

Technical measures:
- In the storage area, install adequate light and ventilation systems to handle hazardous materials.
- Take precautionary measures against static discharge.

Incompatible materials:
- Oxidizing agents

Conditions for safe storage:
