

Nikon's Sustainability

The Nikon Group aims to both contribute to a sustainable society and achieve sustainable growth for itself by putting into practice the Nikon philosophy of Trustworthiness and Creativity through our business activities. Specifically, by tackling 12 materialities in four areas of Business Activities, Environment, Society/labor, and Governance, we are committed to "create" value that contributes to solve social challenges and achieve Sustainable Development Goals (SDGs), and continually assess the impact our business has on the society, make improvements, and meet the expectations of society with "trust."

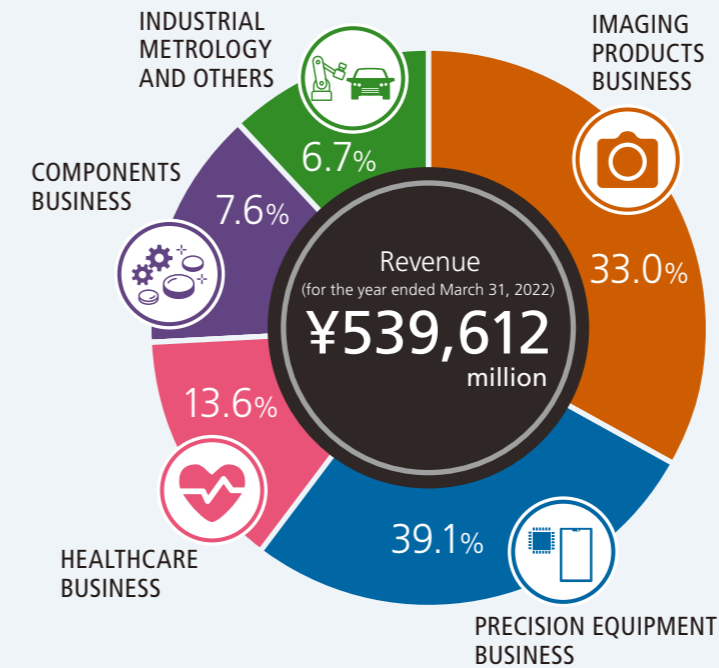

Create value for society through businesses that are mindful of society and the environment
FY2025 targets toward carbon neutrality by FY2050:
 Reduce green-house gas emissions from business sites by 46.5% (compared to FY2013)
