

Nikon's Sustainability

The Nikon Group aims to both contribute to a sustainable society and achieve sustainable growth for itself by putting into practice the Nikon philosophy of Trustworthiness and Creativity through our business activities. Specifically, by tackling 12 materialities in four areas of Business Activities, Environment, Society/labor, and Governance, we are committed to "create" value that contributes to solve social challenges and achieve Sustainable Development Goals (SDGs), and continually assess the impact our business has on the society, make improvements, and meet the expectations of society with "trust."

Sustainable society

Healthy environment

Comfortable society

Mental and physical well-being

Areas where Nikon contributes

Safety and work environment
(Reduce human work/automate and customize)

Decarbonization

Circular systems for resources

Health
(More precise and individualized treatment)

Enriched spirit
(Education × digital)

12 Materialities

1. Creating social value through core technologies
2. Ensuring trustworthiness by maintaining and increasing quality

3. Promoting a decarbonized society
4. Promoting resource circulation
5. Preventing pollution and conserving ecosystems

6. Strengthening supply chain management
7. Respecting human rights
8. Diversity and inclusion
9. Employees' Health and safety

10. Thorough compliance
11. Strengthening corporate governance
12. Strengthening risk management

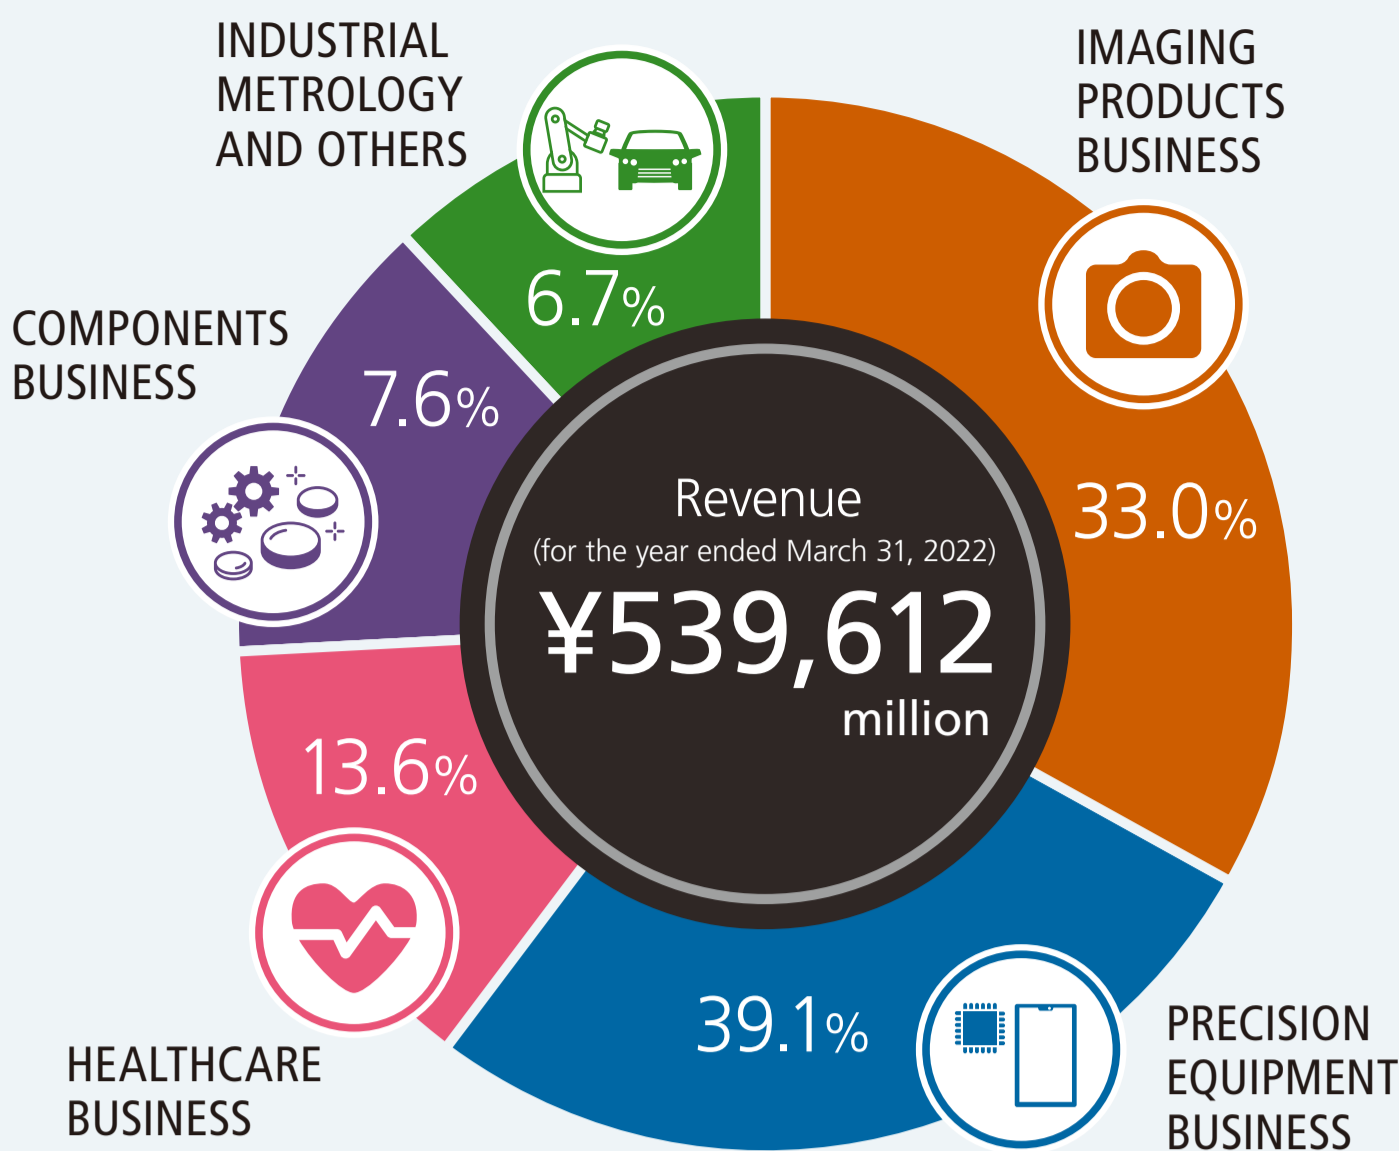

Create value for society through businesses that are mindful of society and the environment

FY2025 targets toward carbon neutrality by FY2050:
Reduce green-house gas emissions from business sites by 46.5% (compared to FY2013)
