## **Items Disclosed on Internet Concerning Notice of the 158th Annual General Shareholders’ Meeting**

- Business Report
  - Subscription Rights to Shares
  - Framework to Ensure Fair Business Activity
- Consolidated Financial Statements
  - Consolidated Statement of Changes in Equity
  - Notes to Consolidated Financial Statements
- Non-Consolidated Financial Statements
  - Non-Consolidated Statement of Changes in Net Assets
  - Notes to Non-Consolidated Financial Statements

Pursuant to the relevant laws and regulations and the provisions of the Company’s Articles of Incorporation, among documents to be attached to this notice, matters to be described or presented in Subscription Rights to Shares and Framework to Ensure Fair Business Activity as part of the Business Report; Consolidated Statement of Changes in Equity and Notes to Consolidated Financial Statements” as part of Consolidated Financial Statements; and Non-Consolidated Statement of Changes in Net Assets and Notes to Non-Consolidated Financial Statements as part of Non-Consolidated Financial Statements are posted on the Company’s website with the following URL:  
[https://www.nikon.com/about/ir/stock\\_info/meeting/](https://www.nikon.com/about/ir/stock_info/meeting/).

**NIKON CORPORATION**

## Subscription Rights to Shares

- (i) Subscription rights to shares held by the Company's Directors that were granted as remuneration for duties performed (as of March 31, 2022)

Issue number (date of issue)	Number of subscription rights to shares	Type and number of shares to be issued	Issue price per right (yen)	Exercise price per right (yen)	Exercise period	Status of holding [number of subscription rights to shares (number of holders)]	
						Directors (excluding Audit and Supervisory Committee Members)	Directors (Audit and Supervisory Committee Members)
5th issue (August 27, 2007)	21	2,100 shares of the Company's common stock	325,900	100	From August 28, 2007 to August 27, 2037	21 (2)	–
6th issue (November 25, 2008)	101	10,100 shares of the Company's common stock	73,400	100	From November 26, 2008 to November 25, 2038	101 (2)	–
7th issue (August 10, 2009)	54	5,400 shares of the Company's common stock	140,800	100	From August 11, 2009 to August 10, 2039	54 (2)	–
8th issue (July 14, 2010)	51	5,100 shares of the Company's common stock	152,700	100	From July 15, 2010 to July 14, 2040	51 (2)	–
9th issue (March 19, 2012)	71	7,100 shares of the Company's common stock	203,700	100	From March 20, 2012 to March 19, 2042	71 (2)	–
10th issue (August 23, 2012)	134	13,400 shares of the Company's common stock	172,600	100	From August 24, 2012 to August 23, 2042	134 (3)	–
11th issue (August 1, 2013)	189	18,900 shares of the Company's common stock	163,200	100	From August 2, 2013 to August 1, 2043	189 (3)	–
12th issue (August 1, 2014)	346	34,600 shares of the Company's common stock	118,300	100	From August 2, 2014 to August 1, 2044	346 (3)	–
13th issue (July 28, 2015)	450	45,000 shares of the Company's common stock	104,000	100	From July 29, 2015 to July 28, 2045	393 (3)	57 (1)
14th issue (July 29, 2016)	399	39,900 shares of the Company's common stock	121,300	100	From July 30, 2016 to July 29, 2046	350 (3)	49 (1)
15th issue (July 27, 2017)	276	27,600 shares of the Company's common stock	168,100	100	From July 28, 2017 to July 27, 2047	226 (3)	50 (1)
16th issue (April 23, 2018)	371	37,100 shares of the Company's common stock	164,400	100	From April 24, 2018 to April 23, 2048	304 (3)	67 (1)
17th issue (April 22, 2019)	894	89,400 shares of the Company's common stock	95,300	100	From April 23, 2019 to April 22, 2049	778 (3)	116 (1)
18th issue (April 17, 2020)	1,915	191,500 shares of the Company's common stock	37,400	100	From April 18, 2020 to April 17, 2050	1,618 (3)	297 (1)
19th issue (August 20, 2021)	749	74,900 shares of the Company's common stock	80,700	100	From August 21, 2021 to August 20, 2051	749 (3)	–

Notes: 1. No subscription rights to shares have been granted to External Directors.

2. Subscription rights to shares held by Directors who are Audit and Supervisory Committee Members were granted when these individuals were Directors other than those who are Audit and Supervisory Committee Members or Officers.

- (ii) Subscription rights to shares granted to employees, etc. as remuneration for duties performed during the fiscal year

The following subscription rights to shares were granted to Officers who do not concurrently serve as Directors.

Issue number (date of issue)	Number of subscription rights to shares	Type and number of shares to be issued	Issue price per right (yen)	Exercise price per right (yen)	Exercise period	Number of persons granted
19th issue (August 20, 2021)	1,479	147,900 shares of the Company's common stock	80,700	100	From August 21, 2021 to August 20, 2051	14

- (iii) Other subscription rights to shares actually issued  
None

## Framework to Ensure Fair Business Activity

[Details of the Resolution]

We believe that the reinforcement of our company's corporate governance plays a pivotal role in achieving "a fair and transparent management deserving of stakeholders' confidence," and we intend to increase its effectiveness by improving the quality of our internal controls. We acknowledge that the achievement of effective and efficient business processes, the credibility of financial reports, the compliance with relevant laws and regulations, and the preservation of company's assets at our company and its subsidiaries (hereinafter the "Group") are the management's responsibility. Accordingly, we will prepare and refine a framework, including our internal regulations as well as our organization, to ensure fair business activity in compliance with the Japanese Companies Act and implementing regulations of the said Act.

- (i) A framework to ensure that performance of duties of directors, etc. and employees of the Group is in compliance with relevant laws and regulations as well as the articles of incorporation
  - a. In order to permeate and establish awareness of corporate ethics, we have established the Nikon Code of Conduct, which shows the Group's basic stance on corporate social responsibility and the standards of behavior to ensure sensible conduct by directors, officers and employees of the Group, based on a high level of morality, pursuant to relevant laws and regulations as well as internal regulations.
  - b. The Compliance Committee regularly performs its function in order to ensure legitimate, fair, and sound corporate behavior. In addition, the Sustainability Committee conducts activities for improving, fostering and educating on issues surrounding sustainability, including social responsibility.
  - c. Regarding elimination of anti-social forces and groups, we have defined our basic approach in the Nikon Code of Conduct. Additionally, we are establishing a system to liaison with attorneys and police forces, to take steadfast action as an organization.
  - d. The Basic Policy on internal control over financial reporting has been established to ensure credibility of financial reporting by the Group. Frameworks to enable the foregoing are being prepared and improved.
  - e. Internal Audit Department has been established as an independent organization. This Department examines whether operations within the Group are conducted in compliance with relevant laws and regulations as well as internal regulations, and when necessary, makes recommendations as to how such operations can be improved.
  - f. Structures are established and administered in order to fully implement compliance by the Group and prevent or correct behaviors that violate social regulations or corporate ethics. The Code of Conduct Hotline is being created as the report/consultation system in this respect.
- (ii) A framework to ensure an efficient performance of duties, etc. by directors of the Group
  - a. At our company and domestic subsidiaries, the executive officer system provides a clear definition of the authority and responsibility in performance of an officer's duty, resulting in quick decision-making as well as an efficient performance of the officer's duty.
  - b. Rules of authority clearly define the scope of authority and responsibility for each post as well as each organization within the Group and are administered, to ensure organized and efficient performance of duties.

- c. Meeting structures such as the Executive Committee, as well as other committees and meeting bodies are established and are administered at our company to enable efficient decision-making and performance of duties for the Group by directors of our company. Among such organizations, the Executive Committee primarily consists of executive directors, deliberates about and resolves major issues regarding management, general internal controls, and guidelines about general operations of the company's business, in accordance with the basic direction of management as determined by the Board of Directors. Major issues are reported to the Executive Committee by each department.
  - d. In accordance with our corporate philosophy of "Trustworthiness & Creativity", management targets of the Group are defined within annual plans as well as within the Medium Term Management Plans, and implemented as specific measures. In order to achieve annual targets, management of operations is carried out through divisional organization. A meeting is regularly held to examine business issues and responses to them. The achievement level of annual targets is evaluated and validated based on the Achievement Evaluation System.
- (iii) A framework aimed at preservation and control of information relating to the performance of duties by directors of our company
- a. Information regarding resolutions, decisions, and reports pertaining to performance duties by directors of our company are preserved in documentary format and until such time as provided in the Regulations of the Board of Directors, the Regulations of the Executive Committee, and the Nikon Group Information Management Rules. The information control system is designed to allow access, when needed, from directors, as well as accounting auditors.
  - b. As for security of information, Information Security Department controls centralized management for information management within the Group and manages coordination and reinforcement of an information management framework within the Group. Further, the common rules in the Group are being established and these rules intend to make definitions of the access level per category and relevance, password control, measures for preventing leaks, manipulations and destructions of proprietary information and other matters generally and thoroughly known by directors, officers and employees within the Group.
- (iv) A framework including rules concerning risk of the Group loss management
- a. In accordance with our recognition of identification, assessment, and control of risk factors potentially affecting operations and business continuity as critical issues, the Risk Management Committee ascertains risks from a group-wide perspective and determines a policy for responding to such risks. Furthermore, we strive to develop a framework to appropriately control risks surrounding the Group by ascertaining risks based on expert knowledge in the Quality Committee, the Export Control Committee, and the Compliance Committee under the Risk Management Committee, as well as the Sustainability Committee and the Environmental Subcommittee thereunder; and by establishing rules to address each risk and ensuring compliance with these rules.
  - b. A framework is in place whereby Internal Audit Department audits the status of risk control by the above committees and others, evaluates its effectiveness, and reports to the Board of Directors through the representative director when necessary, so that the Board of Directors can implement corrective measures.

- (v) A framework regarding reporting to our company of matters related to performance of duties by directors of subsidiaries

A framework is being placed for important matters at subsidiaries to be reported and decided upon by our company in compliance with the Decision and Reporting Rules for Subsidiaries.

- (vi) Implementation of matters concerning employees assisting the Audit and Supervisory Committee of our company, matters concerning these employees' independence from other directors (excluding directors who are Audit and Supervisory Committee members), and a framework to ensure effectiveness of instructions given to these employees by the Audit and Supervisory Committee

- a. Several employees are appointed as dedicated assistants to the Audit and Supervisory Committee who act in obedience to orders of the Audit and Supervisory Committee of our company in order to ensure an efficient procedure of the Audit and Supervisory Committee as well as to ensure the increased effectiveness of the audit.
- b. Orders given by the Audit and Supervisory Committee to the assistants, transfer of the assistants, and evaluation of the assistants' performance are ensured to be independent of officers who assume executive responsibilities.

- (vii) A reporting framework for directors of the Group to the Audit and Supervisory Committee of our company, for other reporting to the Audit and Supervisory Committee of our company, and to ensure that reporting parties do not receive negative treatment as a result of such reports

- a. An Audit and Supervisory Committee member of our company has the authority to attend major meetings. This ensures that the Audit and Supervisory Committee members have opportunities to constantly understand the status of operations and the decision-making process of the Group.
- b. A framework is being developed to ensure appropriate and effective reporting to the Audit and Supervisory Committee of our company regarding facts that can potentially cause damage to our company, information obtained through the reporting/consultation system concerning corporate compliance, or items to be reported at the Audit and Supervisory Committee as previously agreed with directors.
- c. Internal Audit Department reports the status of internal audit as well as the results of the audit to the Audit and Supervisory Committee of our company. The Audit and Supervisory Committee of our company maintains close coordination with Internal Audit Department by measures including requesting, if necessary, further investigations by Internal Audit Department.
- d. We ensure that parties who make reports to the Audit and Supervisory Committee of our company do not receive negative treatment, including provisions in place within the Confidentiality Rules of the Code of Conduct Hotline to forbid retaliation against parties that make reports to the Code of Conduct Hotline, the report/consultation system.

- (viii) Matters regarding policies related to processing expenses or liabilities arising from performance of duties by Audit and Supervisory Committee members of our company

Expenses related to the duties of Audit and Supervisory Committee members of our company are budgeted annually to a certain amount by request of Audit and Supervisory Committee, and for necessary expenses, our company makes payments that are in excess of the budget, pursuant to laws and regulations. Additionally, our company also makes payments, as required, for expenses

required to appoint outside specialists.

- (ix) A framework to ensure effective audit by the Audit and Supervisory Committee of our company
- a. While ensuring independence of the Audit and Supervisory Committee of our company from management functions, this framework enables the Audit and Supervisory Committee of our company to hold regular meetings with the representative director in order to exchange opinions regarding issues to be dealt with by the company, or important tasks pertaining to audits, and to make necessary requests, consequently deepening the mutual understanding between them.
  - b. The Audit and Supervisory Committee of our company hold regular meetings with accounting auditors, to actively exchange opinions and information.

[Outline of Operational Status]

(i) Status of compliance

- The Group strove to engage in awareness building activities for all directors, officers, executive fellows and employees to embrace “Nikon Code of Conduct.”
- The Group conducted an awareness survey in the Group companies in Japan and gave feedback on the survey results to each workplace as well as providing guidance for improvement as needed.
- The Group provided education on competition laws both in Japan and overseas in efforts to strengthen compliance.
- The Group reported on the status of compliance promotion activities such as various compliance education programs and the awareness survey, etc. to the Compliance Committee and gave feedback to each division to improve and enhance the compliance awareness.
- The Group strove to spread the Code of Conduct Hotline, while appropriately handling matters reported to the Hotline.

(ii) Status of risk management

- The Risk Management Committee was held twice a year within the Group.
- The Group performs risk assessment, and creates a “risk map” based on the result. “Risk map” displays the impact scale and event probability of risks. For items assessed as high risk, the Group considers counter measures with each division and makes effort to reduce the risk.
- The Group has established a risk management system to improve the Group’s internal controls. The Group collects and analyzes risk information derived from issues raised by audits of Internal Audit Department, and monitors the status of improvement.

The results of these activities were reported to the Board of Directors.

(iii) Status of group management

- Regarding management of the Group as a whole, it has established a framework in which subsidiaries report significant matters to the Group, which will be authorized by the Group, in accordance with the “Regulations of the Executive Committee” and the “Decision and

Reporting Rules for Subsidiaries,” etc. The Group has been conducting operations along with the framework.

- Each Group company develops and operates with decision-making standards in accordance with “Decision and Reporting Rules for Subsidiaries” and the laws and regulations of each country.
- Regarding preservation and control of information, the Group carries them out in accordance with the “Nikon Group Information Management Rules” and other internal regulations.

(iv) Execution of duties of the Audit and Supervisory Committee

- Full-time Audit and Supervisory Committee Members attend important meetings such as “Executive Committee,” understand the status of management, check the process and content of decision making, and report at the Audit and Supervisory Committee.
- Audit and Supervisory Committee Members audit each division, subsidiary, etc., and check the development and operational status of the internal control system.
- Audit and Supervisory Committee Members regularly exchange opinions with the Representative Directors, share auditing issues, and request corrections as needed.
- Audit and Supervisory Committee Members have the periodical opportunity to exchange opinions with the Internal Audit Department in charge of internal audits and Accounting Auditors to strengthen cooperation. Audit and Supervisory Committee Members also strive to conduct effective audits by sharing information with each division as needed.

## Consolidated Statement of Changes in Equity

(From April 1, 2021 to March 31, 2022)

(Million yen)

	Equity attributable to owners of parent					
	Share capital	Capital surplus	Treasury shares	Other components of equity

## Notes to Consolidated Financial Statements

(Significant Basis for Presenting Consolidated Financial Statements)

### 1. Standards for Preparing Consolidated Financial Statements

The consolidated financial statements of the Company and its subsidiaries (the “Group”) are prepared in accordance with the International Financial Reporting Standards (“IFRS”), pursuant to Article 120, Paragraph 1 of the Rules of Corporate Accounting. In the accompanying consolidated financial statements, certain disclosure items required by IFRS are omitted pursuant to the latter part of the said paragraph.

### 2. Scope of Consolidation

Number of consolidated subsidiaries	:	71 companies
Principal subsidiaries	:	Tochigi Nikon Corporation, Tochigi Nikon Precision Co., Ltd., Sendai Nikon Corporation, Miyagi Nikon Precision Co., Ltd., Nikon Imaging Japan Inc., Nikon Solutions Co., Ltd., Nikon (Thailand) Co., Ltd., Nikon Imaging (China) Sales Co., Ltd., Nikon Inc., Nikon Precision Inc., Nikon Instruments Inc., Nikon Europe B.V., Optos Plc, and others

The increase and decrease of the number of consolidated subsidiaries is as follows.

Increase: 1 company (due to share acquisition)

Decrease: 9 companies (due to merger and other reasons)

### 3. Scope of Equity Method

Number of associates and joint ventures accounted for using equity method	:	15 companies
Principal associates and joint ventures	:	Nikon-Essilor Co., Ltd., Nikon-Trimble Co., Ltd., and others

The increase and decrease of the number of associates and joint ventures accounted for using equity method is as follows.

Decrease: 1 company (due to liquidation)

#### 4. Matters regarding the Accounting Policies

##### (1) Valuation basis and method for financial instruments

###### 1) Non-derivative financial assets

###### (i) Initial recognition and measurement

Financial assets other than derivative financial instruments are classified as those measured at amortized cost, fair value through other comprehensive income, or fair value through profit or loss. The classification is determined at the initial recognition.

###### a) Financial assets measured at amortized cost

The Group classifies its financial assets as those measured at amortized cost only if both of the following conditions are met:

- the financial asset is held within a business model with an objective of collecting contractual cash flows, and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets measured at amortized cost are initially measured at fair value, including transaction costs that are directly attributable to the acquisition. The carrying amount of financial assets measured at amortized cost is calculated by the effective interest method in subsequent measurement.

###### b) Financial assets measured at fair value through other comprehensive income

For certain equity instruments held primarily for the purpose of maintaining or strengthening the business relationship with investees, the Group designates these instruments mainly as fair value through other comprehensive income at initial recognition.

Financial assets measured at fair value through other comprehensive income are initially measured at fair value, and subsequent changes in fair value are recognized in other comprehensive income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is transferred to retained earnings.

###### c) Financial assets measured at fair value through profit or loss

Financial instruments that are not designated as those measured at fair value through other comprehensive income and debt instruments that do not meet the criteria for those measured at amortized cost are classified as those measured at fair value through profit or loss.

Financial assets measured at fair value through profit or loss are initially measured at fair value and subsequent changes in fair value are recognized in profit or loss.

(ii) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another party.

(iii) Impairment of financial assets measured at amortized cost

Allowance for doubtful accounts in respect of financial assets measured at amortized cost is recognized for expected credit losses.

At the end of each reporting period, the Group evaluates whether there has been a significant increase in credit risk of a financial asset since initial recognition. Specifically, if the credit risk of a financial asset has not significantly increased since initial recognition, an allowance for doubtful account is measured at an amount equal to the 12-month expected credit losses. However, if the credit risk has significantly increased since initial recognition, it is measured at an amount equal to the expected credit losses over the remaining term of the financial asset. An allowance for doubtful account for trade receivables without any significant financing components is measured at an amount equal to the lifetime expected credit losses since initial recognition.

Whether the credit risk has significantly increased or not depends on changes in default risk. The following factors are considered to determine if there has been a change in default risk:

- Financial condition of debtors
- Actual credit losses occurred in prior years
- Overdue information in prior years

Provision or reversal of allowance for doubtful accounts is recognized in profit or loss.

2) Non-derivative financial liabilities

Financial liabilities other than derivative financial instruments are classified as either those measured at amortized cost or at fair value through profit or loss. The classification is determined at initial recognition.

(i) Initial recognition and measurement

a) Financial liabilities measured at amortized cost

The Group classifies its financial liabilities other than those measured at fair value through profit or loss as those measured at amortized cost.

Financial liabilities measured at amortized cost are initially measured at fair value less any directly attributable transaction costs. Subsequent to the initial recognition, financial liabilities are measured at amortized cost using the effective interest rate method whereby interest expenses are recognized as “Finance costs” in the consolidated statement of profit or loss.

b) Financial liabilities measured at fair value through profit or loss

Financial liabilities measured at fair value through profit or loss are initially measured at fair value and subsequent changes in fair value are recognized in profit or loss.

(ii) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligation is discharged, canceled, or has expired.

3) Derivative financial instruments and hedge accounting

The Group uses derivative financial instruments, including foreign exchange forward contracts, interest rate swaps, cross currency swaps, and currency options, to manage its exposure to foreign exchange rate and interest rate risks.

The Group does not enter into or trade derivative financial instruments for speculative purposes.

At the beginning of a hedge transaction, the Group documents the relationships between hedging instruments and hedged items, along with its risk management objectives and strategies for undertaking various hedge transactions. Furthermore, the Group evaluates whether a hedging instrument is highly effective in offsetting changes in fair values or cash flows of the relevant hedged item on an ongoing basis during the period specified for hedging.

Derivatives are initially recognized at the fair value on the date when the derivative contracts are entered into, and are subsequently remeasured to their fair values at the end of each reporting period. Changes in fair value of derivatives subsequent to initial recognition are accounted for as follows:

(i) Fair value hedges

Changes in fair value of derivatives as a hedging instrument are recognized in profit or loss. The carrying amount of a hedged item not already measured at fair value is adjusted for the fair value change attributable to the hedged risk with a corresponding entry in profit or loss.

(ii) Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualifying as cash flow hedges is recognized in other comprehensive income. The gain or loss relating to the significantly ineffective portion is recognized immediately in profit or loss.

When the hedged forecast transaction subsequently results in the recognition of a non-financial asset or a non-financial liability, or when the hedged forecast transaction for a non-financial asset or a nonfinancial liability becomes a firm commitment for which fair value hedge accounting is applied, the gain or loss previously recognized in other comprehensive income and accumulated in equity is directly transferred from equity and included in the initial costs or other carrying amount of the asset or liability. For other cash flow hedges, amounts previously recognized in other comprehensive income and accumulated in equity are reclassified to profit or loss in the

same period or periods when the hedged forecast cash flows affect profit or loss. However, if the amount is a loss that is not expected to be recoverable partially or entirely in the future, the amount that is expected to be unrecoverable is reclassified immediately to profit or loss.

Hedge accounting is discontinued when the Group revokes the hedging relationship; when the hedging instrument expires or is sold, terminated, or exercised; or when it no longer qualifies for hedge accounting. Any gain or loss recognized in other comprehensive income and accumulated in equity at that time remains in equity and is reclassified to profit or loss when the transaction of the hedged item is ultimately recognized in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is reclassified immediately to profit or loss.

(2) Valuation basis and method for inventories

Inventories are measured at the lower of cost and net realizable value. Costs of inventories are mainly calculated by the average method and comprise all costs of purchasing and processing as well as other costs incurred in bringing the inventories to their present location and condition. Fixed and variable overhead costs are allocated appropriately and included in the processing costs.

Net realizable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(3) Valuation basis, method and depreciation method for property, plant and equipment, intangible assets (excluding goodwill) and leases

1) Property, plant and equipment

The Group applies the cost model for measurement of property, plant and equipment. Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Property, plant and equipment, except for land and construction in progress, are depreciated using the straight-line method over the depreciable amount, which is determined as the costs less their residual values, over the estimated useful lives from the date when they are available for their intended use.

The estimated useful lives of property, plant and equipment are mainly as follows:

Buildings	30 to 40 years
Machinery and equipment	5 to 10 years

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period.

## 2) Intangible assets

The Group applies the cost model for subsequent measurement of intangible assets. Intangible assets are stated at cost less accumulated amortization and accumulated impairment losses.

### (i) Intangible assets acquired separately

Intangible assets acquired separately are measured at cost at initial recognition.

### (ii) Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are measured at their fair value at the acquisition date.

### (iii) Internally-generated intangible assets

Expenditures on research activities are recognized as expenses in the period in which they are incurred. Expenditures on development (or in the development phase of an internal project) are recognized as assets only if all of the following have been demonstrated:

- (a) the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (b) the intention to complete the intangible asset and use or sell it;
- (c) the ability to use or sell the intangible asset;
- (d) how the intangible asset will generate probable future economic benefits;
- (e) the availability of adequate technical, financial, and other resources to complete the development and to use or sell the intangible asset; and
- (f) the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The other expenditures are recognized as expenses as incurred.

The amount initially recognized for internally-generated intangible assets is the sum of the expenditures incurred from the date when the intangible asset first meets the recognition criteria listed above.

Intangible assets with finite useful lives are amortized by the straight-line method over their estimated useful lives from the date when they are available for their intended use. Amortization

methods, useful lives, and residual values are reviewed at the end of each reporting period.

The estimated useful lives of intangible assets are as follows:

Technology-related assets	13 years
Software	5 years

Intangible assets with indefinite useful lives and intangible assets not yet available for use are not amortized, and are tested for impairment at least annually, and whenever there is an indication that the intangible asset may be impaired.

### 3) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified underlying asset for a period of time in exchange for consideration.

#### (i) Leases (the Group as lessee)

The Group recognizes a right-of-use asset and a lease liability at the commencement date of a lease.

A right-of-use asset is initially measured at cost at the commencement date. After the commencement date, the right-of-use asset is subsequently measured applying a cost model and presented at cost less any accumulated depreciation and any accumulated impairment losses. A right-of-use asset is depreciated from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

A lease liability is initially measured at the present value of the lease payments that are not made at the commencement date. After the commencement date, the lease liability is subsequently measured to reflect interest on the lease liability and the lease payments made. In cases of a contract modification, the lease liability is remeasured, and a corresponding adjustment is made to the right-of-use asset. A lease liability is included in “Other current financial liabilities” and “Other non-current financial liabilities” in the statement of financial position.

Lease payments associated with short-term leases and leases of low-value assets are recognized as an expense on a straight-line basis over the lease term.

#### (ii) Leases (the Group as lessor)

The Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise, a lease is classified as an operating lease.

##### a) Finance leases

Assets held under a finance lease are recognized as a receivable at an amount equal to the net investment in the lease.

b) Operating leases

Operating lease payments received are recognized as income on a straight-line basis over the lease terms.

4) Impairment of non-financial assets and investments accounted for using equity method

At the end of each reporting period, the Group assesses whether there is any indication that non-financial assets may be impaired.

If any impairment indication exists, the recoverable amount of the asset is estimated. However, goodwill, intangible assets with indefinite useful lives, and intangible assets not yet available for use are tested for impairment at least annually regardless of whether there is any indication of impairment.

In addition, the carrying amount of the entire investments accounted for using equity method is tested for impairment as a single asset when there is objective evidence of impairment.

The recoverable amount of an asset or a cash-generating unit is the higher of fair value less costs of disposal or value in use. When the recoverable amount of an individual asset cannot be estimated, the Group estimates the recoverable amount of the cash-generating unit or the group of cash-generating units to which the asset belongs. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Since corporate assets do not generate separate cash inflows, the recoverable amount of an individual corporate asset cannot be determined. If there is an indication that a corporate asset may be impaired, the recoverable amount is determined for the cash-generating unit or the group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of this cash-generating unit or group of cash-generating units, unless the asset has been determined to be disposed of.

If the recoverable amount of an asset or a cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or the cash-generating unit is reduced to its recoverable amount, and an impairment loss is recognized.

When there are indications that an impairment loss recognized in prior periods may no longer exist or may have decreased since the last recognition of the impairment loss, the impairment loss recognized in prior years for an asset or a cash-generating unit other than goodwill is reversed. The reversal of an impairment loss is recognized to the extent where the carrying amount of the asset or the cash-generating unit is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or the cash-generating unit in prior years.

#### 5) Non-current assets held for sale

A non-current asset (or a disposal group) is classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. An asset is classified as held for sale only when the asset (or the disposal group) is available for immediate sale, and when management is committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets (or disposal groups) classified as held for sale are measured at the lower of their carrying amount or fair value less costs to sell and are no longer depreciated or amortized.

#### (4) Accounting criteria for significant provisions

Provisions are recognized when the Group has a present legal or constructive obligation arising as a result of a past event; it is probable that an outflow of economic benefits will be required to settle the obligation; and a reliable estimate can be made.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligations at the end of each reporting period.

When the impact of the time value of money is material, provisions are stated at the present value of the estimated future cash flows which is discounted using a pre-tax rate reflecting the time value of money and the specific risks of the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as "Finance costs."

#### 1) Provision for product warranties

The Group recognizes and measures the provision for future product warranties based on actual sales recorded and warranty costs incurred in prior years, whereby repair expenses can be covered for products sold in the period that the Group guarantees to provide free repair services in the contracts. The Group estimates that the outflows of the expected economic benefits will occur within a one-year period from the end of each fiscal year.

#### 2) Asset retirement obligations

The Group recognizes and measures the provisions for asset retirement obligations based on past experiences, whereby the Group incurred an obligation for the restoration of leased premises, such as office buildings, and for the removal of harmful substances related to property, plant and equipment. The Group expects that the majority of the payments of these obligations will be made after one year from the end of each fiscal year.

(5) Revenue recognition

The Group' revenue is recognized based on the following five-step model:

Step 1: Identify the contract with a customer

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognize revenue when the entity satisfies a performance obligation

The Imaging Products Business provides products for imaging and products, such as digital SLR cameras, compact digital cameras, and interchangeable camera lenses, and services for its peripheral domain. The Precision Equipment Business provides products and services with regard to the FPD lithography system and semiconductor lithography system. The Healthcare Business provides products and services for the Life Science Solutions field, such as biological microscopes, cell culture observation systems, and for the Eye Care Solutions field, such as ultra-wide field retinal imaging devices, as well as for the Contract Cell Development Solutions field. The Components Business provides products for the Digital Solutions field, such as optical components, optical parts, encoders and products for material processing, and products and services for the Customized Products field, such as EUV-related components and products of space-related fields and for the Glass business such as photomask substrates for FPD. The Industrial Metrology Business conducts sales of industrial microscopes, measuring instruments, X-ray/CT inspections systems and surveying instruments. The Group also renders services related to products, such as warranty, repair and maintenance, and relocation services.

For sales of products and rendering of services, the performance obligations are identified based on contracts with customers.

Regarding the sales of products that require installation by the Group, revenue is recognized at the point when the installation is completed. For products that do not require installation by the Group, revenue is recognized at the point when the product is delivered to a customer, as the customer obtains control over the products upon completion of installation or delivery and the performance obligation is deemed to be satisfied. Revenue is measured at the consideration promised in a contract with a customer, less discounts, rebates, and other items.

For the services, if the performance obligation is satisfied at a point in time, revenue is recognized at the point when the services are completed. If the performance obligation is satisfied over time, revenue is recognized on a straight-line basis or on progress over the period during which services are rendered.

(6) Method for accounting of post-employment benefits

1) Post-employment benefits

The Group has defined benefit pension plans and defined contribution pension plans as post-employment benefit plans.

The primary defined benefit plans adopted by group entities in Japan are contract-type defined benefit corporate pension plans and a retirement lump sum payment plan. Certain group entities in Japan have joined the Smaller Enterprise Retirement Allowance Mutual Aid Scheme. Certain overseas group entities have adopted defined benefit plans and defined contribution plans.

(i) Defined benefit plans

The present value of defined benefit obligations, relevant current service cost as well as past service costs of each plan, are determined using the projected unit credit method. The present value is measured at the discounted expected future payments. The discount rate is determined by reference to market yields at the fiscal yearend on high quality corporate bonds for the corresponding period in which the retirement benefits are to be paid.

The net retirement benefit liability or asset is recognized as a liability or an asset in the consolidated financial statements, and is measured at the present value of defined benefit obligation net of the fair value of plan assets (including the effect of the asset ceiling of defined benefit plans and adjustment for minimum funding requirements, if necessary).

Current service cost and net interest expense or income on the net retirement benefit liability (or asset) are recognized in profit or loss. Remeasurements of the defined retirement benefit plans are recognized in other comprehensive income in the period when they occur and transferred immediately to retained earnings. Past service cost is recognized in profit or loss as incurred.

(ii) Defined contribution plans

Contributions to defined contribution retirement plans are recognized as expenses in the period in which the associated services are rendered by employees.

2) Other long-term employee benefits

Liabilities recognized in respect of other long-term employee benefits, such as long-term paid absences, are measured at the present value of the estimated future benefits that are expected to be paid by the Group in exchange for the services rendered by employees up to the reporting date.

3) Short-term employee benefits

Short-term employee benefits are recognized as expenses when the associated services are rendered by employees at undiscounted amounts.

A liability is recognized for the expected benefit payments when the Group has a present legal or

constructive obligation to pay for employee benefits as a result of the services rendered by employees, and when a reliable estimate can be made for the obligation.

(7) Foreign currencies

1) Functional currency and presentation currency

The separate financial statements of each group entity are presented in its functional currency, the currency of the primary economic environment in which the entity operates. The consolidated financial statements of the Group are presented in Japanese yen, which is the functional currency of the Company.

2) Foreign currency transactions

Foreign currency transactions are translated into the functional currency at the spot exchange rate at the date of the transaction or at the foreign exchange rate that approximates the spot exchange rate at the date of the transaction.

Monetary items denominated in foreign currencies are translated into the functional currency at the exchange rate as of the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated to the functional currency at the exchange rate at the date of the transaction. Non-monetary items measured at fair value that are denominated in foreign currencies are translated into the functional currency at the exchange rate at the date when the fair value is measured. Exchange differences arising from the translation or settlement are recognized in “Finance income” and “Finance costs” in the consolidated statement of profit or loss, except for those recognized in other comprehensive income.

3) Foreign operations

For the purpose of presenting the consolidated financial statements, the assets and liabilities of the Group’s foreign operations including goodwill and fair value adjustments arising from the acquisition of foreign operations are translated into Japanese yen using the exchange rate at the end of each reporting period. Income and expenses are translated into Japanese yen at the average exchange rate for the period unless exchange rates fluctuate significantly during that period. Exchange differences on translation of foreign operations are initially recognized in other comprehensive income and accumulated in “Other components of equity.” If a foreign operation is disposed of, the exchange differences of the foreign operation accumulated in “Other components of equity” are transferred from equity to profit or loss when the gain or loss on the disposal is recognized.

Goodwill and fair value adjustments arising from the acquisition of a foreign operation are accounted for as assets and liabilities of the foreign operation and translated at the exchange rate at

the end of each reporting period.

(8) Goodwill

Goodwill is recognized as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the Group's previously held equity interest in the acquiree; over the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed. After initial recognition, goodwill is stated at cost less accumulated impairment losses. Goodwill is not amortized and has been allocated to cash-generating units or groups of cash-generating units.

Goodwill is tested for impairment at least annually or whenever any indication of impairment is identified. If the recoverable amount of a cash-generating unit or a group of cash-generating units is estimated to be less than its carrying amount, an impairment loss of goodwill is recognized in profit or loss and is never subsequently reversed.

(9) Income taxes

Income taxes for the year comprise current and deferred income tax expenses. Income tax expenses are recognized in profit or loss except to the extent that they arise from items recognized in other comprehensive income or directly in equity, or from a business combination.

Current tax expense is measured at the expected tax payable or tax receivable on taxable income for the year due to or due from the tax authorities, applying the tax rates and tax laws and regulations that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax expense is determined based on the temporary differences between the carrying amounts of assets and liabilities for accounting purposes and their tax bases at the end of the reporting period. Deferred tax assets are recognized for all deductible temporary differences, unused tax losses, and unused tax credits to the extent it is probable that taxable profits will be available against which those deductible temporary differences, unused tax losses, and unused tax credits can be utilized. Deferred tax liabilities are recognized for taxable temporary differences, in principle.

Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied in the period in which the liability is settled or the asset is realized, based on tax rates and tax laws and regulations that have been enacted or substantively enacted by the end of the reporting period.

(10) Other significant matters for preparing consolidated financial statements

The consolidated declaration system that the Company and certain overseas consolidated subsidiaries are consolidated taxpayers is applied.

(Notes on Accounting Estimates)

In the preparation of consolidated financial statements, the reported amounts of assets, liabilities, income and expenses are affected by the management's selecting the application of accounting policies and estimates. The assumptions on which the estimates are calculated are based on historical experience, available information and other factors that are reasonably assessed at the end of the reporting period according to management's best judgments. Accounting estimates are based on assumptions that take into consideration factors such as the economy, market, and consumption trends, in addition to the changes in demand and supply in the industries each business of the Group belongs to. However, future results may differ from these estimates and associated assumptions.

The estimates are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively in the period of the revision and future periods. While the influence of COVID-19 is unpredictable as it is uncertain at this moment when COVID-19 will be contained, it is assumed that the influence will continue to some extent into the next fiscal year but will wane.

The following are the key estimates and associated assumptions that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the subsequent reporting period. For details, please refer to the matters regarding each accounting policy and the consolidated statement of financial position.

- Significant assumptions used in the calculation of the expected discounted cash flows for the impairment test of non-financial assets
  - See 4. Matters regarding the Accounting Policies, (3) Valuation basis, method and depreciation method for property, plant and equipment, intangible assets (excluding goodwill) and leases in Significant Basis for Presenting Consolidated Financial Statements.
  - See 4. Matters regarding the Accounting Policies, (8) Goodwill in Significant Basis for Presenting Consolidated Financial Statements.
- Recoverability of deferred tax assets
  - See 4. Matters regarding the Accounting Policies, (9) Income taxes in Significant Basis for Presenting Consolidated Financial Statements.

(Notes to Consolidated Statement of Financial Position)

1. Accumulated Depreciation on Assets (including Accumulated Impairment Loss)

Accumulated depreciation of property, plant and equipment	356,069 million yen
---	---------------------

2. Contingent Liabilities

(1) Guarantee obligations

Guarantees for bank borrowings, etc., such as employees' mortgage loans	54 million yen
---	----------------

(2) Litigation

The Company and its group companies are exposed throughout their business activities to the possibility of being involved in a contentious case, becoming a defendant in a lawsuit, and being the object of inquiries by government agencies, in Japan and overseas. The Company and its group companies examine the possibility of recognizing a provision for the obligation arising from a contentious case or a lawsuit, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The Company's subsidiary in India (hereinafter referred as "Subsidiary in India") was inquired by the Indian Tax Authority regarding the import of the Company's digital cameras, and in October 2016, the imposition was confirmed in relation to the customs duty, interest, and penalty concerning those products. In January 2017, the Subsidiary in India appealed to the Customs, Excise and Service Tax Appellate Tribunal (hereinafter referred to as "CESTAT"); however, the appeal was dismissed in December 2017. To object to this decision, in January 2018, the Subsidiary in India filed an appeal to the Supreme Court of India (hereinafter referred as the "Supreme Court"). In March 2021, the Supreme Court delivered a judgment revoking the decision of CESTAT and consequently the demand notice by the Indian Tax Authority. Subsequently in April 2021, the Indian Tax Authority filed a request for retrial. As it is currently unable to forecast the outcome of the request for retrial, the provision is not recognized in accordance with the aforementioned accounting policy.

In regard to any other cases, no significant impact on the Company's consolidated performance and financial position is expected at this point in time.

3. Allowance for Doubtful Accounts Directly Deducted from Assets

Trade and other receivables	788 million yen
Other financial assets	26 million yen

(Notes to Consolidated Statement of Profit or Loss)

1. Selling, General and Administrative Expenses

Selling, general and administrative expenses mainly consist of the following items:

	Amount (Million yen)
Depreciation and amortization	11,321
Research and development expenses	59,884
Employee benefit expenses	54,927
Advertising and sales promotion expenses	13,932
Others	49,400
Total	189,465

2. Gain on sale of land

Gain on sale of land and other gains totaling 2,542 million yen was recorded in other operating income.

This was mainly due to the Company selling idle land in Shinagawa-ku, Tokyo, Japan.

(Notes to Consolidated Statement of Changes in Equity)

1. Type and Total Number of Shares Issued and Treasury Shares

(Shares)

	As of April 1, 2021	Increase	Decrease	As of March 31, 2022
Shares issued				
Ordinary shares	378,336,521	–		378,336,521
Total	378,336,521	–		378,336,521
Treasury shares				
Ordinary shares	11,147,773	1,925	87,052	11,062,646
Total	11,147,773	1,925	87,052	11,062,646

- Notes:
1. The number of treasury shares at the beginning and end of the current fiscal year includes 576,900 shares of the Company held by the Executive Compensation BIP Trust.
  2. The increase in the number of ordinary treasury shares during the current fiscal year of 1,925 shares is due to purchase of shares of less than one unit.  
The decrease in the number of ordinary treasury shares during the current fiscal year of 87,052 shares is due to a decrease of 87,000 shares arising from the exercise of stock options and a decrease of 52 shares due to sale of shares less than one unit.

## 2. Dividends

### (1) Dividends paid

Resolution	Type of shares	Total dividends paid (Million yen)	Dividend per share (Yen)	Record date	Effective date
Annual General Shareholders' Meeting on June 29, 2021	Ordinary shares	3,678	10.00	March 31, 2021	June 30, 2021
Meeting of the Board of Directors on November 4, 2021	Ordinary shares	7,356	20.00	September 30, 2021	December 1, 2021

- Notes:
1. The amount of dividends resolved at the general meeting of shareholders held on June 29, 2021 included the dividends for the shares held by the Executive Compensation BIP Trust of 6 million yen.
  2. The amount of dividends resolved at the Board of Directors' meeting held on November 4, 2021 included the dividends for the shares held by the Executive Compensation BIP Trust of 12 million yen.

### (2) Dividends of which the record date is attributable to the current fiscal year but to be effective in the following fiscal year

The Company plans to resolve the following dividend at the Annual General Shareholders' Meeting which will be held on June 29, 2022.

Resolution	Type of shares	Total dividends paid (Million yen)	Resource of dividends	Dividend per share (Yen)	Record date	Effective date
Annual General Shareholders' Meeting on June 29, 2022	Ordinary shares	7,357	Retained earnings	20.00	March 31, 2022	June 30, 2022

- Note: The amount of dividends to be resolved at the general meeting of shareholders to be held on June 29, 2022 includes the dividends for the shares held by the Executive Compensation BIP Trust of 12 million yen.

## 3. Share Acquisition Rights and Others

The following are the type and number of shares to be issued upon the exercise of the share acquisition rights as of the consolidated balance sheet date, excluding share acquisition rights for which the first day of the exercise period has not yet arrived.

Ordinary shares 1,990,200 shares

(Financial Instruments)

1. Matters Related to Financial Instruments

(1) Capital management

Under the premise that a certain level of financial stability is maintained, the Group decides its capital management policies to realize the maximization of corporate value by emphasizing operational efficiency of invested capital and utilizing funds for investments (in capital investment, research and development, M&A, and others) that provides expected revenue exceeding its capital cost to enable sustainable growth. At the same time, the policy seeks to meet the demands of shareholders by providing stable returns to shareholders. In order to maintain or adjust the capital structure, necessary funds will be raised basically through cash flows from operating activities generated from maintaining and enhancing the Group's earnings power, in addition to borrowing from banks and the issuance of corporate bonds and so on, which will be carried out if needed.

(2) Financial risk management objectives

Financial instruments held by the Group are exposed to various risks comprising market risks (i.e., foreign currency risk, interest rate risk, and stock price risk), credit risk, and liquidity risk. To mitigate such various risks, the Group has implemented measures according to the nature and size of the transaction and geographical characteristics.

(3) Market risk management

The Group is exposed to market risk of changes in foreign currency exchange rates and in the price of equity instruments.

The Group uses derivative financial instruments such as forward exchange contracts to hedge these risks. Derivatives are held or issued based on the Group's management rules for the exposure to foreign currency translation risk, interest rate risk, price risk, derivatives or other financial instruments. Appropriate operation based on the Group's management rules is being continuously monitored by internal auditors.

1) Foreign currency risk

Trade receivables denominated in foreign currencies arising from the expansion of the Group's business worldwide are exposed to foreign currency fluctuation risk. Some trade payables, such as notes and accounts payable mainly arising from imports of materials, are denominated in foreign currencies and are also exposed to foreign currency fluctuation risk. However, the amounts of such payables are within the range of outstanding accounts receivable denominated in the same foreign currencies. Thus, the Group principally enters into

forward exchange contracts mainly to hedge the position after offsetting foreign currency-denominated trade payables. Hedging transactions that qualify for hedge accounting are accounted for by applying hedge accounting. Depending on the foreign currency market condition, forward exchange contracts within nine-month maximum contract terms are made against the expected amount of foreign currency denominated trade receivables that are deemed certain to arise based on forecast transactions of imports and exports.

## 2) Interest rate risk

The Group is exposed to interest rate risk arising from the borrowings with both fixed and floating interest rates.

Most of the interest-bearing liabilities consist of bonds and borrowings at fixed interest rates. For floating-rate borrowings, the Group has entered into interest rate swap contracts to hedge exposures to achieve an effect of fixed-rate borrowings.

## 3) Other price risks

Investments in securities are exposed to share price risk. The Group regularly obtains information on current market prices or the financial condition of the issuer (counterparty) and reviews the status of the securities held by the Group on an ongoing basis taking into consideration the relationship with the counterparty.

## (4) Credit risk management

The Group is exposed to credit risk (i.e., a risk that counterparty will default on its contractual obligations of a financial asset held by the Group resulting in a financial loss to the Group) arising from trade and other receivables, including notes receivables, accounts receivables, lease receivables, and other receivables.

Trade receivables, including notes, accounts, and lease receivables, are exposed to customers' credit risk. With respect to this risk, the Group manages due dates and account balance by each customer in accordance with the settlement conditions, and it also obtains the information about doubtful accounts that are mainly caused by deterioration in the financial conditions of customers at an early stage. In addition, the Group also mitigates credit risk by utilizing advances and transaction credit insurance according to the nature of transaction contents, trade size, and the creditworthiness of customers.

Other receivables are also exposed to the credit risk of counterparties, but they are generally settled in a short period of time.

Derivatives are exposed to credit risk arising from default by counterparties. With respect to the execution and management of derivatives transactions, the Group operates the transactions

according to internal rules for trade authorization, and enters into derivatives transactions only with highly rated financial institutions to mitigate credit risk.

(5) Liquidity risk management

Trade and other payables, borrowings, and other financial liabilities are exposed to liquidity risk that they cannot be paid for on due dates.

The Group manages its liquidity risk by monitoring the liquidity on hand and by maintaining and ensuring appropriate cash reserves according to conditions using a medium- and long-term cash management system, which is updated on a regular basis.

In addition, the Group has established a global cash management system to work on reducing liquidity risk by managing its group wide cash, including cash reserves held by the domestic and overseas subsidiaries, in a centralized and efficient manner.

2. Fair values of financial instruments and breakdown of items by level

The fair values of financial instruments are measured based on quoted prices in an active market at the end of each reporting period. When a market for financial instruments is not regarded as active, or when it does not exist, the Group uses appropriate valuation techniques for fair value measurement. The financial instruments that are measured at fair value are categorized into the three levels of the fair value hierarchy determined with reference to the observability of inputs used in the valuation techniques.

The definition of each level of the fair value hierarchy is as follows:

Level 1 – Fair value measured using a quoted price in an active market for an identical asset or liability;

Level 2 – Fair value measured using inputs that are composed of observable prices, either directly or indirectly; and

Level 3 – Fair value measured using inputs that are unobservable for the assets or liabilities.

(1) Financial instruments measured at fair value

Fair value hierarchies of financial instruments measured at fair value are as follows.

(Million yen)

As of March 31, 2022	Level 1	Level 2	Level 3	Total
Derivatives	–	4,214	–	4,214
Shares	57,134	–	5,599	62,732
Others	–	932	21,676	22,609
Total assets	57,134	5,146	27,275	89,554
Derivatives	–	1,390	–	1,390
Total liabilities	–	1,390	–	1,390

The fair value measurement in respect of major financial instruments measured at fair value is as follows:

1) Derivatives

Certain derivative assets and liabilities with respect to foreign exchange forward contracts, interest rate swaps, currency swaps, and currency options measured at fair value using appropriate valuation techniques with reference to market prices quoted by financial institutions that enter into these contracts and to other available information are categorized as Level 2.

2) Shares

Shares with active markets are measured at fair value using quoted market prices in the stock exchange and are categorized as Level 1. Regarding the shares that do not have active markets, the items are categorized as Level 2 if the fair value is estimated using observable inputs, and if the fair values are measured using the market approach or the income approach that is determined by discounted future cash flows using other unobservable inputs, such items are categorized as Level 3.

3) Others

Other instruments without active markets are categorized as Level 2 if the fair value is estimated using observable inputs. Assets are categorized as Level 3 if the fair value is estimated using the market approach or the income approach that is determined by discounted future cash flows using unobservable inputs.

(2) Financial instruments measured at amortized cost

The carrying amount and the fair value of those financial instruments are as follows.

(Million yen)

	As of March 31, 2022	
	Carrying amount	Fair value
Financial liabilities		
Bonds	29,902	29,919
Long-term borrowings	76,813	77,160
Total	106,715	107,079

(Note) Current portion of bonds and borrowings is included.

The fair value measurement in respect of major financial instruments measured at amortized cost is as follows:

Fair value of bonds is calculated based on quoted market prices, and the fair value hierarchy is categorized as Level 1. Fair value of long-term borrowings is calculated by discounting future cash flows at an interest rate equal to an appropriate index such as the yield of government bonds plus credit spread, and the fair value hierarchy of long-term borrowings is categorized as Level 3.

Other than bonds and long-term borrowings, the fair values of financial assets and liabilities are measured at amortized cost, which is approximate to their carrying amounts.

(Notes to revenue recognition)

1. Information on disaggregation of revenue

In consideration of the similarity of economic characteristics, the Group integrated its business divisions into four reportable segments consisting of the Imaging Products Business, the Precision Equipment Business, the Healthcare Business, and the Components Business. The business segments are periodically reviewed by the Board of Directors to determine the distribution of management resources and evaluate business results, and revenue of these business units is presented as sales revenue. The relationship between the disclosure of disaggregated revenue into geographical regions based on customer's location and revenue information that is disclosed for each reportable segment are as follows.

(Million yen)

	Imaging Products	Precision Equipment	Healthcare	Components	Industrial Metrology and Others (Note1)	Total
Japan	18,735	24,234	12,693	31,129	11,591	98,382
United States	48,991	35,144	32,391	5,377	7,370	129,274
Europe (Note 2)	41,639	10,754	13,552	870	5,389	72,203
China	25,583	115,589	6,243	1,273	4,783	153,471
Others (Note 2)	43,286	25,495	8,364	2,220	6,917	86,282
Total	178,234	211,216	73,243	40,869	36,050	539,612
Revenue recognized from contracts with customers	177,823	211,216	68,418	40,869	36,050	534,376
Revenue recognized from other sources (Note 3)	411	–	4,825	–	–	5,235

- Notes: 1. The “Industrial Metrology and Others” category is a business segment not included in any of the reportable segments.
2. Except for Japan, the United States and China, the countries or regions are primarily categorized as follows:
1. Europe: the United Kingdom, France and Germany
  2. Others: Canada, Asia other than Japan and China, Middle East, Oceania and Latin-America
3. Revenue recognized from other sources include revenue from leases under IFRS 16 *Leases*.

2. Information useful in understanding revenue

Please refer to “(Significant Basis for Presenting Consolidated Financial Statements), 4. Matters regarding the Accounting Policies, (5) Revenue recognition.”

### 3. Information useful in understanding revenue for the current and following fiscal years

#### (1) Contract balances

The balances of receivables arising from an entity's contracts with customers and advances received are as follows:

(Million yen)

	As of April 1, 2021	As of March 31, 2022
Receivables from contracts with customers	60,839	76,715
Advances received	163,110	139,300

For significant changes in advances received during the year ended March 31, 2022, the amount increased 162,157 million yen by receipt of cash based on contracts, and decreased 191,120 million yen by revenue recognition. The amount of revenue recognized from advances received which existed at the beginning of the period was 119,039 million yen.

The amount of revenue recognized in the reporting period from performance obligations satisfied in previous periods is not material.

#### (2) Transaction price allocated to remaining performance obligations

The transaction price allocated to performance obligations that were unsatisfied (or partially unsatisfied) was 188,204 million yen for the year ended March 31, 2022. These performance obligations will be recognized as revenue from the Precision Equipment Business mainly within two years.

As a practical expedient, the amount does not include transactions for which the original expected term of the contract is one year or less. There are also no significant amounts that are not included in transaction prices in the consideration from contracts with customers.

#### (Notes to Per-Share Information)

1. Equity per Share attributable to Owners of Parent 1,627.34 yen

(Note) On computation of equity per share attributable to owners of parent, the Company's shares held by the Executive Compensation BIP Trust (576,900 shares as of March 31, 2022) were included in the number of treasury shares, which was excluded from the number of shares issued as of the term-end.

2. Basic Earnings per Share 116.23 yen

(Note) On computation of basic earnings per share, the Company's shares held by the Executive Compensation BIP Trust (576,900 shares for the year ended March 31, 2022) were included in the number of treasury shares, which was excluded from the calculation of average shares outstanding.

(Notes to Significant Subsequent Events)

The Company decided the repurchase of its own shares in accordance with the written resolution of the Board of Directors established on April 7, 2022 pursuant to Article 156 of the Companies Act of Japan as applicable through Article 165, Paragraph 3 of the Act, and to cancel treasury shares pursuant to Article 178 of the Companies Act of Japan. This resolution was made pursuant to Article 370 of the Companies Act of Japan and Article 25 of the Articles of Incorporation of the Company.

1. Reason for the repurchase of own shares

The Company has decided to repurchase its own shares to enhance shareholder returns, while improving capital efficiency and ensuring a flexible capital policy.

2. Details of the repurchase

- |   |  |
|---|--|
| (1) Type of shares to be repurchased:         | Ordinary shares  |
| (2) Total number of shares to be repurchased: | 36,000,000 shares (maximum)<br>(Percentage of the total number of shares issued excluding treasury shares: 9.8%) |
| (3) Total amount of shares repurchased:       | 30,000 million yen (maximum)   |
| (4) Repurchase period:                        | From May 13, 2022 to March 24, 2023  |

3. Details of the cancellation

- |   |  |
|---|--|
| (1) Type of shares to be cancelled:         | Ordinary shares  |
| (2) Total number of shares to be cancelled: | 5,000,000 shares out of 10,485,746 treasury shares owned by the Company as of March 31, 2022, in addition to all the treasury shares that the Company will repurchase pursuant to the above. |
| (3) Scheduled date of cancellation:         | March 31, 2023   |

(Other Notes)

Notes to business combinations

Business combination through acquisition

1. Summary of business combination

The Company has acquired the majority (66.65%) ownership of shares of Morf3D Inc. in cash, making it a subsidiary. Morf3D is a contract manufacturer of aerospace and aircraft components.

(1) Name of acquired company and its business outline

Name of acquired company: Morf3D Inc. (“Morf3D”)

Business outline: Contract manufacturing of aerospace and aircraft components  
(additive manufacturing (AM))

(2) Primary reasons for business combination

Morf3D is a company based in California, the United States and is specialized in metal additive manufacturing (AM), generally referred to as 3D printing. The company ranks one of the nation’s leaders especially in contract manufacturing of aerospace and aircraft components.

The Company has identified the material processing business as one of the key growth areas in its medium-term management plan. Morf3D serves for many of major aerospace plane manufacturers in the United States and Europe. The company also holds necessary certifications for the aerospace plane industry. Following the acquisition of the majority of shares, the Company aims to expand the material processing business, leveraging the business foundation held by Morf3D.

Specifically, the Company plans to drive the contract manufacturing business combining Morf3D’s customer base and the Company’s precision processing technology such as optical processing machine, towards the market of mid- and small-sized satellites which is rapidly expanding due to demands for internet connections as well as acquisition and analysis of earth observation images, etc.

(3) Legal form of business combination

Acquisition of shares in exchange for cash and subscription of new shares through third-party allotment

(4) Date of business combination

April 2, 2021

2. Acquisition cost of the acquired company and breakdown by type of consideration

(Million yen)

Cash	4,270
Total acquisition cost	4,270

3. Details of major acquisition-related costs

Acquisition-related costs for the business combination was 177 million yen and recorded as selling, general and administrative expenses in the consolidated statement of income for the fiscal year ended March 31, 2021.

4. Fair value of assets and liabilities, non-controlling interests, and goodwill as of the acquisition date

(Million yen)

Current assets	4,146
Non-current assets (Note 1)	2,010
Total assets	6,156
Current liabilities	1,638
Non-current liabilities	345
Total liabilities	1,983
Net assets	4,173
Non-controlling interests (Note 2)	1,392
Goodwill arising in acquisition (Note 3)	1,489

- Notes
1. Non-current assets include identifiable intangible assets of 807 million yen, consisting of customer-related assets of 695 million yen, and technology-related assets of 112 million yen.
  2. Non-controlling interests are measured as the ratio of non-controlling interests to the identifiable net assets of the acquired company.
  3. Goodwill is the future excess earning power expected from future business development. None of the recognized goodwill is expected to be deductible for tax purposes.

5. Expenditure to gain control of the subsidiary

The reconciliation of the consideration for acquisition of shares of Morf3D with the net expenditure for acquisition is as follows.

(Million yen)

Consideration for acquisition of shares of Morf3D	4,270
Less: Cash and cash equivalents of Morf3D (Note)	(3,892)
Net expenditures for acquisition of Morf3D	378

Note: Cash and cash equivalents of Morf3D include the paid-in amount of 3,703 million yen from capital increase through third-party allotment.

6. Consolidated revenue and consolidated profit for year based on the assumption that the business combination had been completed at the beginning of the period  
Consolidated revenue and profit for year based on the assumption that the business combination had been completed at the beginning of the period are omitted as their impact on the consolidated statement of income for the current fiscal year is insignificant.

All amounts have been rounded to the nearest million yen.

## Non-Consolidated Statement of Changes in Net Assets

## Notes to Non-Consolidated Financial Statements

### 1. Matters related to Significant Accounting Policies

#### (1) Valuation basis and method for securities

- |  |   |
|--|---|
| - Held-to-maturity debt securities                     | Stated at amortized cost.   |
| - Investments in subsidiaries and associated companies | Stated at cost determined by the moving-average method.   |
| - Available-for-sale securities (with market price)    | Stated at fair value based on quoted market prices at the balance sheet date. Unrealized gains and losses, net of applicable taxes, are reported in a separate component of equity, and the cost of the securities sold is calculated by the moving-average method. |
| - Available-for-sale securities (without market price) | Stated at cost determined by the moving-average method.   |

The Company records investments in limited liability investment partnerships and in other similar partnerships (deemed “securities” under the provisions set forth in Article 2, Paragraph 2 of the Financial Instruments and Exchange Act) using the amount of interest in such partnerships calculated based on ownership percentage and the most recent financial statements on the report date stipulated in the partnership agreement.

#### (2) Valuation basis and method for derivatives

Stated at fair value.

#### (3) Valuation basis and method for inventories

Generally, work in process is stated at cost determined by the specific identification method, and other inventories are stated at cost determined by the average method. Inventories with lower profitability are written down.

(4) Depreciation method for non-current assets	
- Property, plant and equipment (excluding leased assets)	The straight-line method is applied.
- Intangible assets (excluding leased assets)	The straight-line method is applied.
- Leased assets	Leases that do not transfer ownership of the leased property to the lessee are depreciated using the straight-line method over the lease terms without residual value.
(5) Accounting for deferred assets	Bond issuance expenses are expensed as paid.
(6) Accounting criteria for allowances and provisions	
- Allowance for doubtful accounts	To cover probable losses on uncollectible receivables, the allowance for doubtful receivables is computed based on historical bad debt experience for general accounts and based on the analysis of individual collectability for specific accounts.
- Provision for product warranties	The Company mainly provides for the cost of product warranties at the time revenue is recognized in order to cover repair costs for the product with an obligation that the Company shall provide free repairs for a certain period. The provision is measured at estimated cost based on the past experience ratio or measured separately when the product warranty expense can be separately estimated.
- Provision for retirement benefits	The Company accounts for the provision for employees' retirement benefit based on the projected retirement benefit obligations and pension assets at the balance sheet date. Prior service cost is amortized on a straight-line basis over 10 years (a certain period within the average remaining service period of employees) from the period in which the prior service cost accrues, and actuarial gains and

losses are amortized on a straight-line basis over 10 years (a certain period within the average remaining service period of employees) from the period immediately following the period in which the actuarial gains and losses arise.

When calculating retirement benefit obligations, the benefit formula basis is used to allocate estimated retirement benefits in the period up to the end of the current fiscal year. When the amount of projected pension assets falls below the amount of projected retirement benefit obligations after adjusting for any unrecognized actuarial difference and unrecognized prior service cost, the difference is posted as provision for retirement benefits. When it is in excess, the excess amount is posted as prepaid pension cost.

- Provision for loss on business of subsidiaries and associates

To cover probable losses on business of subsidiaries and associates, the Company provides for an estimated excess amount of loss over investments in capital of, and loans receivable from, subsidiaries and associates to be incurred by the Company.

(7) Revenue recognition

The Company's revenue is recognized based on the following five-step model:

- Step 1: Identify the contract with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when the entity satisfies a performance obligation

The Imaging Products Business provides products for imaging and products, such as digital SLR cameras, compact digital cameras, and interchangeable camera lenses, and services for its peripheral domain. The Precision Equipment Business provides products and services with regard to the FPD lithography system and semiconductor lithography system. The Healthcare Business provides products and services for the Life Science Solutions field, such as biological microscopes and cell culture observation systems, and for the Eye Care Solutions field, such as ultra-wide field retinal imaging devices. The Components Business provides products for the Digital Solutions field, such as optical components, optical parts, encoders and products for material processing, and products and services for the Customized Products field, such as EUV-related components and products of space-related fields and for the Glass business such as photomask substrates for FPD. The Industrial Metrology and Others category conducts sales of industrial microscopes, measuring instruments, and X-ray/CT inspections systems.

The Company also renders services related to products, such as warranty, repair and maintenance, and relocation services.

For sales of products and rendering of services, the performance obligations are identified based on contracts with customers. Regarding the sales of products that require installation by the Company, revenue is

recognized at the point when the installation is completed. For products that do not require installation by the Company, revenue is recognized at the point when the product is delivered to a customer, as the customer obtains control over the products upon completion of installation or delivery and the performance obligation is deemed to be satisfied. Revenue is measured at the consideration promised in a contract with a customer, less discounts, rebates, and other items.

For the services, if the performance obligation is satisfied at a point in time, revenue is recognized at the point when the services are completed. If the performance obligation is satisfied over time, revenue is recognized on a straight-line basis over the period during which services are rendered.

Monetary receivables and payables denominated in foreign currencies are translated into Japanese yen at the spot exchange rate prevailing at the balance sheet date, and the translation adjustment is recognized in the non-consolidated statement of income.

(8) Translation basis of assets and liabilities denominated in foreign currencies into Japanese yen

(9) Hedge accounting

a. Method for hedge accounting

Deferral hedge accounting is applied.

b. Hedging instruments and hedged items

Hedging instruments are foreign exchange forward contracts, currency options, cross currency swaps, and interest rate swaps.

Hedged items are receivables and payables denominated in foreign currencies, forecasted foreign currency transactions, bonds payable, and loans payable.

c. Hedging policy

Foreign exchange risk and interest rate risk of

d. Method for assessment of hedge effectiveness	<p>hedged items are hedged within a certain scope in accordance with internal rules that regulate the authorization, transaction limit, and others related to derivative transactions. The Company compares the cumulative changes in cash flows from, or the changes in fair value of, hedged items with the corresponding changes in the hedging instruments and evaluates hedging effectiveness based on the changes and others.</p>
(10) Application of consolidated declaration system	<p>The Company applies the consolidated declaration system.</p> <p>Concerning items which transitioned to the group tax sharing system and those for which the non-consolidated tax payment system was reviewed in line with the transition to the group tax sharing system, which has been established under the “Act for Partial Amendment of the Income Tax Act, etc.” (Act No. 8 of 2020), the Company will not apply the provisions of Paragraph 44 of “Implementation Guidance on Tax Effect Accounting” (ASBJ Guidance No. 28 of February 16, 2018), in accordance with Paragraph 3 of “Treatment of Tax Effect Accounting for the Transition from the Consolidated Declaration System to the Group Tax Sharing System” (PITF No. 39 of March 31, 2020). As a result, the amounts of deferred tax assets and deferred tax liabilities are reported based on the provisions of the tax act before the amendment.</p> <p>From the beginning of the fiscal year ending March 31, 2023, the Company will apply “Practical Solution on the Accounting and</p>

Disclosure Under the Group Tax Sharing System” (ASBJ Practical Solution No.42, August 12, 2021), which prescribes accounting and disclosure treatments of the corporation tax and local corporation as well as tax effect accounting where an entity applies the group tax sharing system.

## 2. Changes in Presentation Method

### (1) Application of accounting standard for revenue recognition, etc.

The Company has applied “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29, issued on March 31, 2020) and “Implementation Guidance on Accounting Standard for Revenue Recognition” (ASBJ Guidance No. 30, revised on March 26, 2021) starting from the current fiscal year, and recognizes revenue at a point of time in which control of promised good or service is transferred to a customer at a price expected to be received in exchange for the good or service.

Note that the change does not affect the non-consolidated financial statements.

### (2) Application of accounting standard for fair value measurement, etc.

The Company has applied the “Accounting Standard for Fair Value Measurement” (ASBJ Statement No. 30, July 4, 2019; hereinafter “Fair Value Measurement Standard”) and other standards from the beginning of the fiscal year ended March 31, 2022, and will prospectively apply the new accounting policies stipulated by the Fair Value Measurement Standard, etc. in accordance with the transitional treatment provided in Paragraph 19 of the Fair Value Measurement Standard and Paragraph 44-2 of the “Accounting Standard for Financial Instruments” (ASBJ Statement No. 10, July 4, 2019).

Note that this change does not affect the non-consolidated financial statements.

## 3. Notes on Accounting Estimates

In the preparation of non-consolidated financial statements, the reported amounts of assets, liabilities, income and expenses are affected by the management's selecting the application of accounting policies and estimates. The assumptions on which the estimates are calculated are based on historical experience, available information and other factors that are reasonably assessed at the end of the reporting period according to management's best judgments. Accounting estimates are based on assumptions that take into consideration factors such as the economy, market, and consumption trends, in addition to the changes in demand and supply in the industries each business of the Group belongs to. However, future results may differ from these estimates and associated assumptions.

The estimates are reviewed on an ongoing basis. Revisions to accounting estimates are recognized

prospectively in the period of the revision and future periods. While the influence of COVID-19 is unpredictable as it is uncertain at this moment when COVID-19 will be contained, it is assumed that the influence will continue to some extent into the next fiscal year but will wane.

The following are the key estimates that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the subsequent reporting period. For details of the estimates and underlying assumptions, please refer to Notes on Accounting Estimates as part of the consolidated financial statements and the non-consolidated balance sheet.

- Recoverability of deferred tax assets
- Impairment of non-current assets

4. Notes to Non-Consolidated Balance Sheet

(1) Accumulated depreciation of property, plant and equipment 177,746 million yen

(2) Guarantees of indebtedness

(Million yen)

Guarantee	Guaranteed amount	Content of guarantee of indebtedness
89 employees	54	Mortgage and others
Subsidiaries	725	Loans payable and others
Total	779	

(3) Monetary receivables and payables to affiliated companies

Short-term monetary receivables	44,038 million yen
Long-term monetary receivables	4,976 million yen
Short-term monetary payables	86,981 million yen

(4) Monetary payables to Directors

Long-term monetary payables	33 million yen
-----------------------------	----------------

5. Notes to Non-Consolidated Statement of Income

(1) Transactions with affiliated companies

Operational transactions	
Sales to affiliated companies	175,564 million yen
Purchase from affiliated companies	125,412 million yen
Other transactions	6,588 million yen

(2) Gain on sale of land

The Company recorded gain on sale of land of 2,352 million yen in extraordinary income as a result of selling idle land in Shinagawa-ku, Tokyo, Japan held by the Company.

(3) Gain on sale of investment securities

The Company recorded gain on sale of investment securities of 15,539 million yen in extraordinary income as a result of selling shares of JEOL Ltd. held by the Company.

6. Notes to Non-Consolidated Statement of Changes in Net Assets

Type and number of treasury shares at the end of the period

Ordinary shares	11,062,646 shares
-----------------	-------------------

## 7. Tax Effect Accounting

### Deferred tax assets and deferred tax liabilities

#### Deferred tax assets:

Inventories	16,296	million yen
Accrued bonuses	1,609	million yen
Depreciation	20,673	million yen
Provision for product warranties	360	million yen
Impairment loss	3,936	million yen
Percentage of completion method	8,509	million yen
Other	14,984	million yen
Subtotal of deferred tax assets	66,367	million yen
Valuation allowance	(14,854)	million yen
Total deferred tax assets (deferred tax liabilities)	51,513	million yen

#### Deferred tax liabilities:

Reserve for advanced depreciation of non-current assets	(4,123)	million yen
Valuation difference on available-for-sale securities	(10,463)	million yen
Other	(1)	million yen
Total deferred tax liabilities	(14,587)	million yen
Net deferred tax assets	36,926	million yen

## 8. Notes to Transactions with Related Parties

(Million yen)

Category	Company name	Percentage of voting rights (%)	Relationship	Transaction	Transaction amount (Note 4)	Account	Balance at end of period (Note 4) (Note 5)
Subsidiaries	Nikon Precision Inc.	100.0	Import and sale of the Company's products	Sale of Precision Equipment Business products (Note 1)	18,158	Advances received	26,945
	Nikon (Thailand) Co., Ltd.	100.0	Manufacture of the Company's products	Manufacture of Imaging Products Business products (Note 2)	62,082	Accounts payable - trade	5,773
	Nikon Vision Co., Ltd.	100.0	Sale of sport optics	Receipt of deposits for consumption (Note 3)	-	Deposits received	8,055
	Nikon Tec Corporation	100.0	Maintenance services for FPD and semiconductor-related equipment	Receipt of deposits for consumption (Note 3)	-	Deposits received	13,490

Condition of transaction, policy to determine such condition and others

(Note 1) The condition of transaction of product sales is determined in consideration of market prices.

(Note 2) The condition of transaction of product manufacturing is determined after negotiation in each case in consideration of prices calculated based on market quotations and estimates from customers.

(Note 3) The Group has adopted a cash management system (hereinafter referred to as “CMS”), but it is difficult in practice to tally the amounts of cash transactions using the CMS by detail of such transactions. Accordingly, only the balances at the end of the period are presented. Interest rates for loans to subsidiaries and borrowings from subsidiaries are reasonably determined in consideration of market interest rates.

(Note 4) The transaction amount and balance of overseas subsidiaries at the end of the period do not include consumption taxes and others.

(Note 5) The balances of monetary receivables and payables denominated in foreign currencies at the end of the period are presented in the amounts translated into Japanese yen at the spot exchange rate prevailing at the balance sheet date.

#### 9. Notes to Revenue Recognition

Please refer to “1. Matters related to Significant Accounting Policies, (7) Revenue recognition.”

## 10. Retirement Benefits

### (1) Outline of retirement benefit plans

The Company has a defined benefit corporate pension plan (cash balance plan) under the Defined-Benefit Corporate Pension Act. The Company also has a defined contribution pension plan for a portion of future retirement benefit.

### (2) Retirement benefit obligation

Retirement benefit obligation	(83,572)	million yen
Fair value of pension assets	102,995	million yen
Unfunded retirement benefit obligation	19,423	million yen
Unrecognized actuarial gain	(15,976)	million yen
Unrecognized prior service cost	35	million yen
Prepaid pension cost	3,481	million yen

Fair value of pension assets includes the retirement benefit trust of 5,551 million yen.

### (3) Retirement benefit expenses

Service cost	1,535	million yen
Interest cost	530	million yen
Expected return on pension assets	(618)	million yen
Recognized actuarial loss	(1,765)	million yen
Recognized prior service cost	5	million yen
Subtotal	(313)	million yen
Others	(15)	million yen
Retirement benefit expenses	(328)	million yen

In addition to the above retirement benefit expenses, contributions to the defined contribution pension plan amounting to 937 million yen were recorded in “Cost of sales” and retirement benefit expenses included in “Selling, general and administrative expenses.”

### (4) Others

Discount rate	0.7%
Long-term expected rate of return on pension assets	0.6%

## 11. Executive Compensation Board Incentive Plan (BIP) Trust

The Company has introduced a performance- and share-based payment scheme for executive directors of the Company, namely, the executive compensation Board Incentive Plan (“BIP”) Trust (hereinafter referred to as the “Executive Compensation BIP Trust”), in order to further enhance incentives for realizing the business prospects indicated in the Medium-Term Management Plan and for sustainably improving corporate value.

The trust agreements are accounted for in accordance with “Practical Solution on Transactions of Delivering the Company’s Own Stock to Employees etc. through Trusts” (PITF No. 30 of March 26, 2015).

### (1) Overview of transactions

The Executive Compensation BIP Trust is an incentive plan granting the shares of the Company or paying the cash equivalent of the conversion value of the granted shares as directors’ remuneration in the final year of the three-year Medium-term Management Plan, depending on the achievement of business performance for each three years.

### (2) The Company’s shares held by the Executive Compensation BIP Trust

The Company’s shares held by the Executive Compensation BIP Trust are recorded as treasury shares in net assets of the balance sheet at the carrying amount recognized in the trust. The carrying amount and number of those shares at the end of the current fiscal year were 971 million yen and 576,900 shares, respectively.

## 12. Per-Share Information

Net assets per share	980.75 yen
----------------------	------------

(Note) On computation of net assets per share, the Company’s shares held by the Executive Compensation BIP trust (576,900 shares as of March 31, 2022) were included in the number of treasury shares, which was excluded from the number of shares issued as of the term-end.

Earnings per share	79.86 yen
--------------------	-----------

(Note) On computation of earnings per share, the Company’s shares held by the Executive Compensation BIP Trust (576,900 shares for the year ended March 31, 2022) were included in the number of treasury shares, which was excluded from the calculation of average shares outstanding.

### 13. Notes to Significant Subsequent Events

The Company decided the repurchase of its own shares in accordance with the written resolution of the Board of Directors established on April 7, 2022 pursuant to Article 156 of the Companies Act of Japan as applicable through Article 165, Paragraph 3 of the Act, and to cancel treasury shares pursuant to Article 178 of the Companies Act of Japan. This resolution was made pursuant to Article 370 of the Companies Act of Japan and Article 25 of the Articles of Incorporation of the Company.

All amounts have been rounded to the nearest million yen.
