## **Nikon announces reorganization of corporate structure**

---

March 5, 2021

TOKYO - Nikon Corporation (Nikon) announced today the reorganization of its corporate structure as outlined below, scheduled for April 1, 2021.

### **Background of the reorganization**

To strengthen the functions of corporate strategy, group governance and administration by separating and reorganizing those functions, Nikon has decided to close the Corporate Strategy Division and relocate its function to the Office of the President, the Group Governance & Administration Division and the Corporate Sustainability Department.

### **Establishing the Office of the President**

Nikon is newly establishing the Office of the President to strengthen the functions of corporate strategy, supporting and monitoring each business as well as accelerating M&A and growth of the new businesses to the core.

### **Reorganizing the Group Governance & Administration Division**

To improve administration efficiency and enhance group governance, Nikon is reorganizing the Human Resources & Administration Division into the Group Governance & Administration Division, and integrating corporate communications function.

### **Reorganizing the Corporate Sustainability Department**

To clarify the management stance of Nikon Group that makes a contribution towards the sustainable growth of society and to promote the development of sustainable policy and strategy through the group, Nikon is reorganizing the Corporate Sustainability Department, a subordinate organization of division, under the President.
